EDUCATION

Ulsan National Institute of Science and Technology (UNIST), <i>South Korea</i> Ph.D. in <i>Design</i> (GPA: 98.7 / 100)	2021 – Present
London College of Fashion, University of the Arts London, <i>United Kingdom</i> Master of Arts in <i>Pattern and Garment Technology</i> (Distinction)	2017 – 2018
Beijing Institute of Fashion Technology, <i>China</i> Bachelor of Engineering in <i>Fashion Design and Engineering</i>	2013 – 2017

ACADEMIC EXCHANGE PROGRAM

Bunka Gakuen University, <i>Japan</i> Exchange Program	07. 2015
Shibaura Institute of Technology, <i>Japan</i> Design Global Workshop	07-08. 2023

PROFESSIONAL EXPERIENCE

Assistant Designer (2020), Designer (2021) <i>Aimer Co., Ltd., Suzhou, China</i> - Assisted in developing commercial styles for seasonal fashion collections based on trend research. - Contributed to the design and fitting of loungewear products, collecting and synthesizing user feedback. - Developed textile printing and graphic designs aligned with seasonal collections. - Supported end-to-end product development from sketching and fabric selection to fitting and final production, including a collaboration program with the British Museum.	2020 - 2021
Fashion Tutor (Parttime) <i>Jiangsu Prologue Education Consulting Co., Ltd, Suzhou, China</i> - Teach basic skills in creative design, pattern cutting and fashion theory - Help students to develop their own aesthetic and design identity through experiments and independent work	2019 - 2021
Program Manager (Remote) <i>and art Fashion Technology, Beijing, China</i> - Managed online educational platform operations in collaboration with artists, designers, and instructors. - Planned and executed promotional programs and educational content schedules. - Coordinated project timelines, budgets, and communication with external collaborators.	2019 – 2020
Embroiderer <i>Jiang Yuqiu Studio, Beijing, China</i> - Learned to make traditional handicraft works, such as petit point, patchwork and barbola. - Studied the history and patterns of traditional Yun brocade and improved my skills in weaving Yun brocade.	2015 – 2017
Assistant Pattern Cutter (Intern) <i>Chenfeng Group Co. Ltd, Changshu, China</i> - Participated in the design work for the Brand Blooming 2017 ss ready-to-wear collection, understood the design sketches and created trial patterns for toiles - Draped and mocked-up toiles on the stand to develop the shape required or created and adjusted patterns digitally	06-08. 2016

RESEARCH EXPERIENCE

Creativity from Surprise: Bridging the Gap Between Fashion Designers' Inspiration Work and AI Creative Support Tools.

Yu Jin, Yousang Kwon, Juhyeok Yoon, Kyungho Lee. In *Proceedings of the 2026 CHI Conference on Human Factors in Computing Systems*, pp. 1-18.

Understanding Fashion Designers' Behavior Using Generative AI for Early-Stage Concept Ideation and Revision

Yu Jin, Juhyeok Yoon, James Self, Kyungho Lee. *Archives of Design Research*, 37(3), 25-45.

Human-AI co-creation in fashion design ideation and sketching: an empirical study

Yu Jin, Kyungho Lee. In *Proceedings of IEEE/CVF Computer Vision and Pattern Recognition Conference (CVPR), CVFAD Workshop*, Seattle, USA.

AI as a Catalyst for Creativity: Exploring the Use of Generative Approach in Fashion Design for Improving Their Inspiration

Yu Jin, Juhyeok Yoon, James Self, Kyungho Lee. *DRS2024: Boston, 23–28 June*, Boston, USA.

SELECTED PROJECTS

Fiésta – GenAI-powered Fashion Design Platform

2025

Lead Researcher & System Designer

Conducted in-depth interviews with 20 fashion professionals to investigate creative workflows and expectations regarding generative AI. Designed and developed an AI-assisted fashion ideation platform using GPT-4o, DALL-E 3, Next.js, TypeScript, and Supabase. Led user testing and authored the research publication.

xEV – Hyundai Motor Future Mobility Project

2024

Researcher & Concept Designer

Conducted market research and user analysis for future mobility scenarios in collaboration with Hyundai Motor Company. Contributed to concept development, ideation, and prototyping. Co-developed Medi Pod and Mobile Oasis mobility concepts and presented research findings at the KSAE 2024 Conference.

ICE – Fashion Low Back Brace (iF Design Award)

2023

Lead Product Designer

Designed a wearable back-support solution that combines healthcare functionality with fashion aesthetics. Conducted user research on posture-related pain points and developed a tension-adjustable support system using controllable carbon-wire technology. Awarded the iF Design Award 2023.

BBB Korea Service Redesign

2021

Researcher

Conducted market research and competitive analysis of language-support and communication service platforms to identify user needs and service opportunities. Contributed to service repositioning, concept development, and interface design recommendations for the redesign of the bbb Korea mobile application.

RunwayCLO

2021

Researcher & Developer

Explored AI-assisted fashion customization through style transfer, fashion trend forecasting, and virtual try-on simulation. Developed a real-time visualization workflow integrating graphic generation and clothing simulation technologies.

SKILLS

Design

Fashion Design • Trend Forecasting • Graphic Design

Digital Design

CLO3D • Gerber • Blender • Adobe Family • Figma

Research

User Research • Interviews • Concept Development

Languages

Chinese • English (Professional) • Korean (Elementary)
